BY an Order from the Royal Society, for the En-
couragement of Arts and Manufactures estab-
lished in the City of London, for the good of his
Majesty's Subjects in general, I the Subscriber
having been ordered from the Northern Colonies
Eighteen Months ago, by the Society, particularly to
this Colony of Maryland, to propagate the making
and manufacturing of the alkaline Salts into Pot-
Ash, Pearl-Ash, Cassop, and Markof Ashes, of
which I have been, since the Year 1763, instructing
in all the Provinces to the Northward of the *Tarjays*
with such Success, that this Branch of Business is be-
come a staple Commodity, and is the only sure Re-
mittance they have for most Part of their European
Manufactures, which they import from Great-Bri-
tain; and as I am now sensible the Ashes that I have
seen in this Province are no Ways inferior to the
Ashes to the Northward, I can assure the Publick, that
the above Manufactory may be carried on to the
general good of the Inhabitants of this Province; and
for their Encouragement, any Person or Persons in-
clining to erect and be taught that Business, may
have it in their Power at this Time, by applying to
me the Subscriber, at the House of Mr. Henry James,
in Baltimore-Town, where Letters, &c. will be
punctually answered; and for the further Encourage-
ment of this Branch of Business, so that all Materials
may be had in this Province, I will undertake to
erect Air-Furnaces upon the best and most approved
Plan of any in America, for casting Metals, for the
erection of Works, for preparing the alkaline Salts
for the European Markets, which Works are by
equal Experiments now erected at Fifty per Cent.
less than at the first propagating them in America,
that those Persons inclined to erect such Works in
any Part of this Province, will be surprised at the
small Expence attending them, and the large Return
made from them. I purpose teaching the above Busi-
ness on reasonable Terms, or erecting and finding
every Material at a certain Sum, according to the
Largeness of the Works and their Situation.

DOCTOR HENRY STEVENSON

Notifies the P U B L I C K,
THAT he continues inoculation the Year round
after the most approved American Manner;
his Patients are not at all confined to the House, nor
disagreeably restrained in their Diet. Those who
incline to put themselves under his Care, are re-
quested not to alter their Way of living before they
come to be inoculated, as a long Course of success-
ful Practice has shewn it hurtful instead of beneficial.
